**OFFICE ACTION**

***Election/Restriction***

1. This invention application contains claims directed to four (4) patentably distinct species:  
  
Group A (1-5, 21-25, and 41-45): A composite (coupling) spacer [class 257, subclass 333];  
  
Group B (6-10, 26-30, and 46-50): A method of forming a composite (coupling) spacer [class 438, subclass 303];  
  
Group C (11-15, 31-35, and 51-55): A flash memory cell [class 257, subclass 315];  
  
Group D (16-20, 36-40, and 56-60): A method of forming a split-gate flash memory cell [class 438, subclass 201].

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Applicant must choose one species from each of Groups A thru B, because of:

- 1) Group A compared to Group B: The composite spacer in Group A can be made in many different methods comprising the method in Group B.
- 2) Group A compared to Group C: The spacer in Group A does not include a floating gate insulating layer over floating gate.
- 3) Group A compared to Group D: The spacer in Group A does not include such step as forming a floating gate insulating over a floating gate.
- 4) Group B compared to Group C: The spacer formation method in Group B lacks disclosing a floating gate insulating layer over floating gate.
- 5) Group B compared to Group D: The spacer formation method in Group B is differed from the cell formation method.
- 6) Group C compared to Group D: The memory cell in Group C can be made in many different methods comprising the method in Group D.

2. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and must include an election of the invention to be examined even though the requirement is traversed (37CFR 1.143).

3. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
